As an experienced graphic designer transitioning into a career as a developer, I bring a unique perspective to software development. With a Java full stack course completed and 7 months of experience as a Java developer in South Korea, I have honed my technical skills and gained valuable industry experience. Now back in the US, I am seeking challenging roles to apply my skills and continue to develop my abilities further. I am passionate about creating innovative solutions and collaborating with teams to deliver high-quality products.

Hard Skills: Java, OOP, JavaScript, HTML5, CSS, jQuery, Ajax, React, Bootstrap, Spring, Oracle databases, MySQL, SQL, Apache, Tomcat Server, JSON, XML, mybatis, Visual Studio Code, Eclipse, IntelliJ IDEA, Npm, GitHub, Git, SVN, Database, RDBMS, React.js, NodeJS, typScript, Kubernetes

Teamwork, Adaptability, Organization, Attention to Detail, Self-Motivation, Time Management, Problem-Solving, Quality-Oriented, Innovative, Collaboration, Solution-Driven, Fast-Paced, Code Reviews, Clean Code, High-Quality Production, Requirements Gathering, Communicate, Data Analysis, Design, Researching, Project Management, Front-End, Back-End, User Interfaces, Product Design, Agile, Coding, Test driven development, Data structures, Frontend, Backend, Fast-growing, Application developer, Troubleshooting, Design, SDLC, Collaborate, Web applications, Integrations, MVC, Unit test

EXPERIENCE

Java Developer | Nexfron | 1/2022 - 7/2022

- Collaborated as a Software Engineer on the Enterprise API Team, dedicated to enabling seamless integration of KICA's call center management software with client systems.
- Updated and enhanced user functionality through feature modifications and recommendations for improvements leveraging Bootstrap, Java, and Spring.
- Conducted comprehensive testing and debugging to ensure optimal software performance and functionality post-development.

Advertisement Design | Korea Times | 3/2012 - 3/2013

- Discussed potential ideas for a newspaper advertisement based on client requirements.
- Utilized Adobe Photoshop and Illustrator to create advertisement designs.
- Proofread spelling and communication with clients until they confirmed the AD.
- Converted designs to outlined images and CMYK type and performed color correction as needed.

UX/UI Designer | Interact Corner | 8/2010 - 3/2012

- Designed the user experience and user interface to launch an online shopping mall on a smart TV.
- Converted fashion catalog files to various sizes for uploading to the smart TV platform.
- Collaborated with the marketing team to create a draft UX/UI design based on a new contract proposal for the smart TV.

Presentation Designer | 6/2009 - 2/2010

- Divided presentation scenarios into paragraphs to visualize presentation slide pages.
- Created visual elements such as dynamic graphs or icons to enhance presentations.
- Utilized Microsoft PowerPoint to add animations that highlight the essential message on each presentation slide.

PROJECTS

Eodi-Eodi | 09/2021

- Developed the blog page for clients to share their experiences at local restaurants, activities, and sightseeing.
- Clients added feedback comments and pictures and tracked views to list the Top 5 places to visit.
- Tools: Bootstrap, HTML5, JavaScript, jQuery, Ajax, Spring Framework, Java, Oracle SQL, Tomcat, and GitHub.

X-nags | 11/2021

- Developed the Groupware API, created a booking system to assist employers with booking facilities and information technology.
- The system also managed employee information such as job title, salary, department, and benefits.
- Tools used: Bootstrap, HTML5, JavaScript, jQuery, Ajax, Spring Framework, Java, Oracle SQL, Tomcat.
